INTRODUCTION

In 1998, the Washington State Legislature (Chapter 67.28.8001 RCW) mandated the Department of Community, Trade and Economic Development to prepare a report describing how the transient lodging tax has been spent by taxing jurisdictions within each county over the past six years.

This is the second report, prepared with the assistance of Dean Runyan Associates, to comply with Chapter 67.28.8001 RCW and track the expenditures made with lodging tax revenue. To collect expenditure data, a survey instrument was mailed to each of the lodging tax jurisdictions in the state of Washington. A copy of that survey is included as Appendix A of this report. The figures provided in this report appear as reported and were not verified by independent audit.

This report is divided into four sections:

1. Statewide summary of lodging tax revenue and reported expenditures from 1994 to 1999.
2. State-Shared Lodging tax revenues collected by jurisdiction from 1994 to 1999.
3. Additional Lodging tax revenues collected by jurisdiction from 1994 to 1999.
4. Reported distribution of lodging tax expenditures by jurisdiction from 1994 to 1999.

SECTION I.

Statewide Summary of Lodging Tax Revenue and Reported Expenditures, 1994-1999

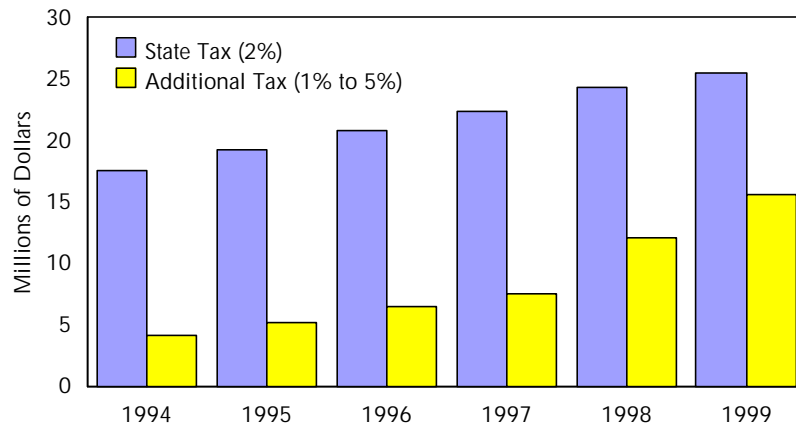

In the state of Washington, a local option tax, or “state-shared” tax, of 2 percent is levied on the sale (i.e., rental) of hotel/motel rooms and other similar lodging facilities, including commercial campsites. This tax is a charge for lodging for continuous periods of less than one month of lodging of a transient nature. The state-shared tax is not paid in addition to other state and local sales taxes; rather, it is credited against the state’s 6.5 percent retail sales tax. Tax revenues are collected by the state and then distributed to the specific jurisdictions that levy the tax.

Cities are permitted to levy this tax within their corporate limits, and counties are permitted to levy it in unincorporated areas and within those cities that do not levy it. Most of the major cities within the state collect local transient lodging taxes and with a few exceptions, most counties also collect transient lodging taxes. Currently, 126 cities and 32 counties have imposed the tax.

Prior to July of 1997, additional transient lodging taxes were authorized by statute for specific cities and counties for specific purposes. These taxes were paid in addition to all other state and local sales taxes. As of July 27, 1997, any city, town, or county is now eligible to levy an additional hotel/motel tax of up to 4 percent, unless previously authorized for more. Up to one-half of this amount (2 percent) can be credited against the state sales tax, as is the case with the 2 percent state-shared tax. Generally, the permitted use of the funds is for a tourism-related activity or facility, such as a convention center. Additional hotel/motel taxes were levied in 77 jurisdictions in 1999, up from 26 jurisdictions in 1997.

As reported by the Washington State Department of Revenue, Figure 1 shows the total tax receipts associated with the state-shared 2 percent tax and those associated with the “additional” or “special” hotel/motel tax revenue from 1994 through 1999.

SECTION I.
Statewide Summary of Lodging Tax Revenue and Reported Expenditures,
1994-1999

There has been a significant increase in the amount of revenue associated with the additional tax. Tax receipts for the additional tax have increased by approximately 25 percent per year between 1994 and 1999. Overall, total dollars available to cities and counties outside of King County for Tourism marketing have nearly doubled from about \$7.5 million in 1994 to \$13.8 million in 1999.

Within the state of Washington, jurisdictions reported expenditures of lodging tax revenue for the following categories as described in Chapter 67.28.180 RCW:

- Convention Center Acquisition
- Fund for Future Construction or Other Projects
- Other Acquisition
- Operation of Tourism-related Facilities
- Convention Center
- Other Operations
- Tourism Promotion of Area
- Promotion or Operation of Local Events
- Promotion or Operation of Culture/Arts/Heritage
- All Other

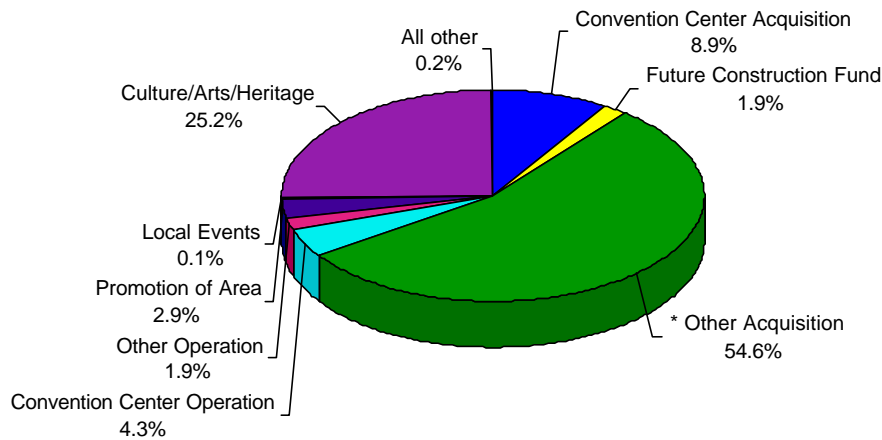

The distribution of total statewide expenditures among these basic expenditure categories is shown in Figures 2 and 3. For King County, “Other Acquisitions” comprised approximately 55 percent of total expenditures and represents the largest category of total reported expenditures (see Figure 2). These expenditures were reported as stadium debt service. For all other counties combined, “Promotion of the Area” was the largest expenditure category, which comprised approximately 34 percent (see Figure 3).

King County is shown separately because the county’s revenues account for close to 50 percent of total statewide lodging tax collections. Including King County in the statewide total would substantially impact the statewide expenditure distribution and would not accurately reflect expenditures made in the rest of the state.

The categories “Other Acquisitions” and “Other Operations” both included a variety of public facilities such as sports stadiums/fields, public restrooms, chamber/visitor/tourist information centers, municipal pools, and downtown park/gazebo. The category “All Other” also included some of the previously mentioned public facilities as well as expenditures such as economic development plans, tourism consulting/marketing studies, lighting for downtown, banners and welcome signs, and youth scholarships.

Note: The cities and counties listed represent jurisdictions that received distributions in 1999. Blank cells represent amounts that have not been disclosed due to confidentiality rules during all or part of the year, or that the tax was not effective in that jurisdiction (prior to 1999). The state total includes the non-disclosed amounts.

NR = Not Reported

Note: Ephrata and Castle Rock did not report expenditure data for 1998-99. Kittitas County, Sequim, and SeaTac represent new or modified 2 percent jurisdictions that were inadvertently overlooked in the initial data process. Information will be added in a subsequent addendum.

Note: Distributions of Lodging Tax expenditures represent the percent of the total reported by each jurisdiction.
